

**UNIVERSITY OF CALIFORNIA SAN DIEGO  
STUDENT PARTICIPATION AGREEMENT**

I, \_\_\_\_\_(print name), am a student in ECE 191 at the University of California San Diego. As a part of the requirements for successful completion of this class, I understand that it is necessary for me to complete a design project.

I further understand that my project may be sponsored by an industrial company ("sponsored project") and that the sponsor may have requested rights to any intellectual property that arises as a result of their sponsored project.

I understand that if I participate in a sponsored project then I agree to assign my rights in any results that are generated to the sponsor of the project and to complete any paperwork that is necessary to do so.

I was informed of this requirement at the beginning of this class and I understand that I was not required to participate in a sponsored project, that other projects were available, and that my grade would not be prejudiced by any decision by me not to participate in a sponsored project.

I understand that this assignment does not preclude my being compensated by the sponsor for intellectual property if the sponsor should agree to such an arrangement, but that the University of California has no responsibility in assisting me in such a negotiation, should it arise.

READ, UNDERSTOOD, AND AGREED;
